## Profile

---

Final year Computing (Games Programming) student studying at Edge Hill University with strong proficiency in C#, Unity & Python alongside experience in Java and Blender. Currently expanding my skill set by learning Unreal Engine and C++ and using them in my final year project. Looking forward to applying the skills and knowledge gained during university in a professional setting as a games programmer/developer.

## Skills

---

**Languages:** C#, C++, Python, Java.

**Game Engines:** Unity, Unreal Engine.

**Additional Tools & Software:** Blender, Latex

## Education

---

**Edge Hill University**, Bachelor of Science (Hons) Computing (Games Programming)

2022 – Graduating July 2025

- **Expected Grade:** 1st Class
- **Relevant Modules:** Research & Development Project, Games Engines, Programming Languages, Computer Graphics & Modelling, Intelligent Systems, Streaming & Media, Interface Programming, Digital Design & Production, Mobile Apps

## Experience

---

**Crew Member**, McDonald's – Chirk

2021 – 2022

- Collaborated with team members to achieve wait times of less than 5 minutes at peak time with high order accuracy.
- Maintained cleanliness and organization of workstations, promoting a safe and efficient environment for both team members and customers.

## Volunteering

---

**Treasurer**, Edge Hill Music Society

2024 – Present

- Coordinated weekly events, including rehearsals and performances, enhancing members' skills and showcasing talent
- Managed the society's finances, ensuring accurate budgeting and effective resource allocation

**Young Leader**, Cub Scouts – 1st Rhosnessney

2018 – 2019

- Planned & ran Cub scout activities for an average of 32 7–11 year-olds improving their camping, team working & general life skills.
- Collaborated effectively with fellow leaders to implement programs, fostering clear communication and cooperation.

## Hobbies

---

- **Gaming:** I enjoy playing games like Destiny 2, Minecraft, and Titanfall 2. Minecraft offers creative freedom, while Destiny 2 and Titanfall 2 stand out for their engaging FPS gameplay. These games enhance my enjoyment of gaming and fuel my interest in game development and programming.
- **Guitar:** I've been playing guitar for over five years and perform in a band, creating original music with friends. This collaboration helps me develop coordination and attention to detail.
- **Dungeons & Dragons:** I occasionally play D&D with friends, enjoying the strategy, problem-solving, and teamwork. This sharpens my critical thinking, collaboration, and adaptability.
